

Foreline Trap for RV Series Edwards Rotary Vane Pumps

FORELINE TRAPS

For Edwards RV Series Rotary Vane Vacuum Pumps

ISO Flange NW/KF25

Extend the Life of Your Vacuum Pump

Cut Maintenance Costs

Prevent System Downtime

RV Edwards Series Pumps RV3, RV5, RV8, RV12

APPLICATIONS & EQUIPMENT

- Foreline traps serve to prevent containments from entering the pump and protect the system from pump fluid or particulate migration. **(Backstreaming)**
- Prevent Dry Scroll Tip Seal Dust Migration
- Trap Condensable Vapors
- Rotary Vane Pump Protection
- Mist removal for Gear Box Venting
- Semi-Conductor Industry

FEATURES & SPECIFICATIONS

- **Interchangeable Cartridge** provides for clean easy maintenance
- **Vacuum Level:** Typically 1.3×10^{-3} mbar (1×10^{-3} mmhg)
- **ISO NW Flange Standard:** Easy release clamp flanges for use in foreline vacuum applications
- **Durable Corrosive Resistant** nickel chrome finish which prevents outgassing
- **Fully-Drawn Housing** with positive engagement ring technology

FILTER MEDIA

- **Polyester Media:** 99% Efficient to 5 Microns
- **Stainless Steel Wire Mesh:** Corrosive resistant media, with large surface area, traps condensed particles & oil vapors
- **Activated Carbon Granule** Stops both particulate matter, gas or vapor odors and contaminants
- **Activated Alumina:** Long media life span and is very effective in preventing backstreaming and in trapping water & acid vapors (Lewis acids, polar compounds & other acids)

Parent Housing <i>Without Media*</i>	ISO Flg Inlet & Outlet	DIMENSIONS - inches			Rated Flow SCFM
